

# Growvite Forte for Cows

Manufactured in Ireland to the highest specifications, Growvite Forte has produced the following results in trials:

- Conception Rate to 1st Service increased by 18.7%
- Retained Placentas were reduced from 7.2% to 1.3%
- Barrenness was halved from 4.2% to 2.5

Get in touch with us if you would like to see the complete trial results and we will be happy to supply you with the data.

## Administration of Growvite Forte

As with all animal food supplements and medicines, Growvite Forte should be administered with care. You can mix it with feed on an individual basis or give it in water.

Growvite Forte comes in handy bottle packs of 1 litre and 2.5 litres so it is easy to store safely and measure accurately.

## Indications for the Use of Growvite Forte

**Cows:** 50 ml from 3 weeks prior to service. 50 ml from 4 weeks prior to calving.

**Cattle & Calves:** 5 ml per 50 kg at 6 week intervals if required.
